Acton Key Advantages

- ▶ **Personalized Care** - the clinician selects the most favorable medications to apply to the wound
- ▶ **7 Day Continuous Treatment** - medications are applied automatically, assuring compliance with the treatment plan for up to 7 days
- ▶ **Sustained Quality of Life** - a small, lightweight and silent system that maintains the patient's freedom of movement and quality of life

New Wound Care Capabilities

In more than four thousand years traditional wound treatments have only improved incrementally. However, in recent years a new generation of Active Wound Care has emerged with Negative Pressure Wound Therapy, Grafting, and Hyperbaric Therapy.

Now ACTON Topical Delivery System takes the next step in the evolution of wound care with a new capability; the continuous delivery of fresh medication, of the clinicians choosing, to the wound. This ability to personalize treatment by adding a specific medication continuously to the wound is a new advancement in the treatment of hard to heal wounds.

Automated Compliance

ACTON's new technology delivers fresh medication, automatically to the wound for up to 7 days. This allows for the administration of medication and moisture to facilitate healing with minimal tending by the patient or clinician. This makes compliance with the treatment plan easy for everyone.

A Smart Solution for Your Wound Care Team

Wound care can be both resource and labor intensive. ACTON optimizes skilled personnel by only requiring 1 application every 7 days. ACTON is a new tool in the battle against chronic hard to heal wounds. ACTON streamlines the process and simplifies caring for the wound, allowing for the wound care team to help treat more patients.

ACTON IN 3 EASY STEPS

- 1** Evaluate the wound
- 2** Personalize the medication solution
- 3** Apply ACTON for up to 7 days of continuous, compliant delivery of moisture and medication
