

VictoryTape™

BY ANDOVER

Use in combination with **PowerFlex®**

- Coheres with PowerFlex & remains bonded with activity stress
- Excellent conformability
- Excellent stability & range of motion performance
- Sweat and water resistant – taped areas will not slip
- Stretches less than 1% when wet - eliminating the “give” that exists when using *traditional* cloth trainers tape
- Holds up during play
- Designed to compete against Coach® Tape

Economical!

STEP 1:

Apply PowerFlex directly to the skin - removing all stretch - for 23 lbs. of tensile strength.

STEP 2:

Apply VictoryTape over PowerFlex.
