

Product Description:

- Kit includes:
 - RS005-0512 Respiratory Hygiene Station - Locking
 - Holds two boxes of face masks, one or two boxes of facial tissues or one box of gloves, and one hand sanitizer dispenser
 - Made of Quartz Beige Powder-Coated Aluminum
 - MP-070 Sign Holder - Vertical
 - Holds 8.5" x 11" signage vertically (Cover Your Cough signage can be downloaded at www.BowmanDispensers.com)
 - Made of Clear PETG Plastic
- All hardware included to assemble as shown

Primary Area for Product Usage:

- Emergency and admitting departments, all ports of entry, outpatient radiology/MRI, outpatient labs and pharmacies

Dispenses:

Most brand name boxes:

- Two boxes of face masks up to 7.75"W x 5.00"H x 4.75"D (19.7 cm x 12.7 cm x 12.1 cm)
- One large or two small boxes of tissues or one box of gloves up to 5.50"W x 10.00"H x 4.75"D (13.7 cm x 25.4 cm x 12.2 cm)
- One hand sanitizing gel or foam dispenser - mountable area 8.35"W x 14.75"H x 5.00"D (21.2 cm x 37.5 cm x 12.7 cm) [Note: Refer to automatic dispensing specifications on detection distance requirements.]

Product Specifications (overall external dimensions):

- 22.3"W x 24.4"H x 5.0"D (56.5 cm x 62.0 cm x 12.7 cm)
- 5.3 lbs (2.4 kg) - approximated

Package Specifications:

- Package Quantity: 1 per case
- 24"L x 16"W x 6"H (61.0 cm x 40.6 cm x 15.2 cm)
- 8.0 lbs (3.6 kg) - approximated

Sanitizer, face masks, and tissues not included

Mounting Specifications:

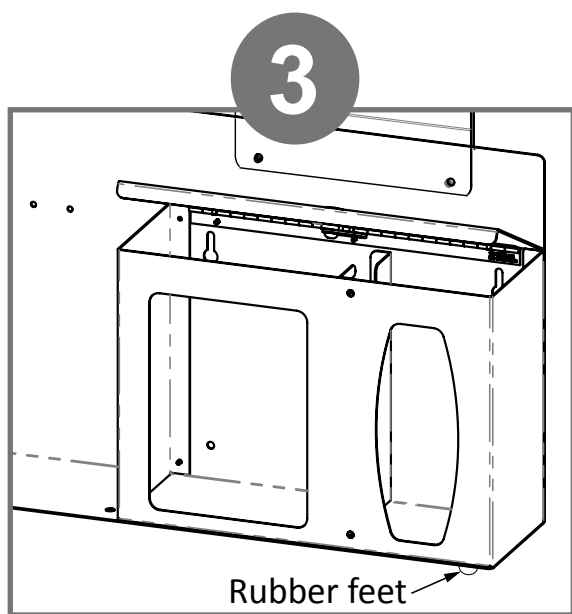

To mount the MP-070 Sign Holder, sandwich the holder over the top edge of the dispenser, lining up holes. Attach using (2x) barrel screws included with sign holder.

Sign holder overlaps front and back of dispenser as shown.

For placing on counter, attach (4x) self-adhesive rubber feet at each of the bottom corners (included).

Dispenser can also be mounted securely to a wall through keyholes and screw holes in back with screws approved and supplied by building maintenance. All four mounting holes provided must be used.

Parts included:

- Respiratory Hygiene Station
- Sign Holder

• Hardware

- (4x) rubber feet
- (2x) pair barrel screws

Tools required:

- Flathead Screwdriver

Advantage

Designed for Long-Term Use

Our aluminum dispensers and stands are coated with polyester triglycidyl isocyanurate (TGIC) powders, making them highly corrosion resistant. They are lightweight, attractive, functional and provide years of service.

Major Benefits

Durable

Our powder-coated aluminum dispensers resist corrosion, chipping, and flaking. This material will provide long-lasting products that hold up well, even in tough environments.

Cleaning

The semi-gloss powder-coated finish resists mild chemicals and cleaning agents, such as Windex or glass cleaners. Standard hospital cleaning supplies are approved for use on our powder-coated products or can be cleaned with a damp cloth or mild soap and water. Scotch-Brite, steel wool or any abrasive products should not be used.

Strength

Powder-coated aluminum is ideal for dispensers used in a healthcare or industrial settings. It is impact resistant and is not affected by extremes in temperature.

Appearance

The clean, bright appearance of powder-coated aluminum looks attractive and provides a professional image in all environments.

Advantage

Designed for Long-Term Heavy-Duty Applications

Copolyester resin is designed for heavy-duty applications, and is used by Bowman® Dispensers exclusively.

Major Benefits

Toughness

Copolyester (PETG) is typically 15-20 times tougher than general purpose acrylic. PETG is made to withstand handling and reduce losses due to breakage.

Chemical Resistance

PETG resists a variety of chemicals and commonly used cleaning agents, such as PDI wipes.

Impact Strength

PETG is tough and durable (not brittle), providing years of trouble-free functionality and long life.

Clarity and Gloss

PETG looks good and makes an attractive display. Clear optical characteristics mean the viewer can see the content, read text, and see true colors through the material. Complies with FDA regulations for food contact.

Easy to Clean

Most cleaning chemicals do not weaken the surface or cause damage to the material. Suggested cleaning method is to use a soft cloth, warm water, and mild soap.
