

# AirLife® Tri-Flo™ suction catheters and tracheostomy care

AirLife® Tri-Flo™ suction catheters and tracheostomy care kits help you treat the compromised airway. An array of options allows you to choose the optimal product configurations for your patient needs.

**AirLife®**

## Verso™ multi-purpose airway adapter

### Help minimize ventilator-associated pneumonia (VAP)

Using the Verso™ adapter in-line allows clinicians to perform open suctioning procedures through a single port *without disconnecting the circuit*.

- Made without DEHP
- Approved for use for up to seven days
- Designed for adult, pediatric and infant use

#### Adult/Pediatric

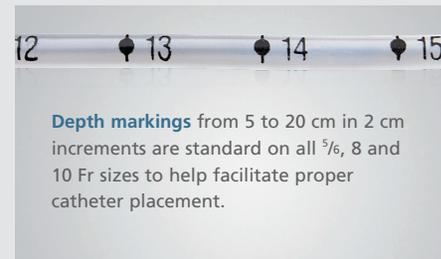

Cat. no.	Description	Qty.

CSC500	Verso T airway access adapter	20

#### Neonatal/infant

Cat. no.	Description	Qty.
CSC300	Neo-Verso® 'Y' airway access adapter	20
CSC600	Neo-Verso airway access adapter w/swivel	20

## Tri-Flo suction catheters

Tri-Flo catheters are designed with two triangular eyes and a beveled tip to increase suctioning efficiency while reducing patient trauma. The Tri-Flo catheter portfolio offers catheters in 5/6, 8, 10, 12, 14 and 18 Fr sizes to cover a range of patient needs. Clear connectors are standard on all 5/6 and 8 Fr sizes to help you easily visualize patient secretions.

**Depth markings** from 5 to 20 cm in 2 cm increments are standard on all 5/6, 8 and 10 Fr sizes to help facilitate proper catheter placement.

Tri-Flo catheter tip design

### Single catheters

Tri-Flo catheters are available in looped and straight packaging configurations in 5/6, 8, 10, 12, 14 and 18 Fr sizes. Most single catheters are available with or without a control port, so you can choose continuous or controlled suctioning.

Looped with control port			Straight with control port		
Cat. no.	Size (Fr)	Qty.	Cat. no.	Size (Fr)	Qty.
T63C	5/6	50	T263C	5/6	100
T64C	8	50	T264C	8	100

T161C	10	100	T162C	18	100
T168C	12	100			

## Cath-N-Glove™ economy catheter kits

Tri-Flo catheters are packaged with two powder-free vinyl (*latex-free*) exam gloves and a pop-up basin. All economy kits are packaged in a plastic peel pouch to ease use and speed preparation.

### Two powder-free vinyl gloves

Cat. no.	Size (Fr)	Qty.
4893T	5/6	100
4897T	8	100
4895T	10	100
4898T	12	100
4894T	14	100

## Cath-N-Glove wallet catheter kits

Tri-Flo catheters are packaged with two nitrile (*latex-free*) gloves and a pop-up basin wrapped together in an inner wallet. The kit is packaged in a plastic peel pouch to ease use and speed preparation.

### Two nitrile gloves

Cat. no.	Size (Fr)	Qty.
4863T	5/6	100
4867T	8	100
4865T	10	100
4868T	12	100
4864T	14	100

## Rigid basin kits

Tri-Flo catheters are packaged in a rigid basin with two walled powder-free vinyl (*latex-free*) exam gloves. The rigid basin can hold your solution while the inner wallet can provide a sterile field during setup to support aseptic technique.

### Two powder-free vinyl gloves
