Drug Facts

Active ingredients (in each 2 TSP (10 mL))	Purposes
Dextromethorphan HBr, USP 20 mg.....	Cough suppressant
Guaifenesin, USP 200 mg.....	Expectorant

Uses ■ temporarily relieves cough due to minor throat and bronchial irritation as may occur with a cold ■ helps loosen phlegm (mucus) and thin bronchial secretions to drain bronchial tubes.

Warnings

Do not use if you are now taking a prescription monoamine oxidase inhibitor (MAOI) (certain drugs for depression, psychiatric or emotional conditions, or Parkinson's disease), or for 2 weeks after stopping the MAOI drug. If you do not know if your prescription drug contains an MAOI, ask a doctor or pharmacist before taking this product.

Ask a doctor before use if you have ■ cough that lasts or is chronic such as occurs with smoking, asthma, chronic bronchitis or emphysema ■ cough that occurs with too much phlegm (mucus).

Stop use and ask a doctor if cough lasts more than 7 days, comes back, or is accompanied by fever, rash, or persistent headache. These could be signs of a serious condition.

If pregnant or breast-feeding, ask a health professional before use.

Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away.
