Product Features	Consumer Benefits
Removes Rust:	As well as stains, water deposits and tarnish.
Rinsing Agents:	Rinses spot & residue-free.
pH Near Neutral:	Product safe and compatible with all metals.
Bacteriostatic:	If stored properly, not favorable to bacterial growth.
User Friendly:	Convenient wipe is ready-to-use.

Procedures	Directions for Use
Directions:	To remove stains, gently rub affected area with the wipe until stain is no longer visible. For heavily stained spots, rub area with greater pressure. Instruments must be washed after using wipes and before sterilization. Do not use on rings of gold- or black-handled instruments (tungsten carbide or SuperCut).
