INNOVATION EXCELLENCE

## Owen Mumford

#### Over 60 Years of Innovation

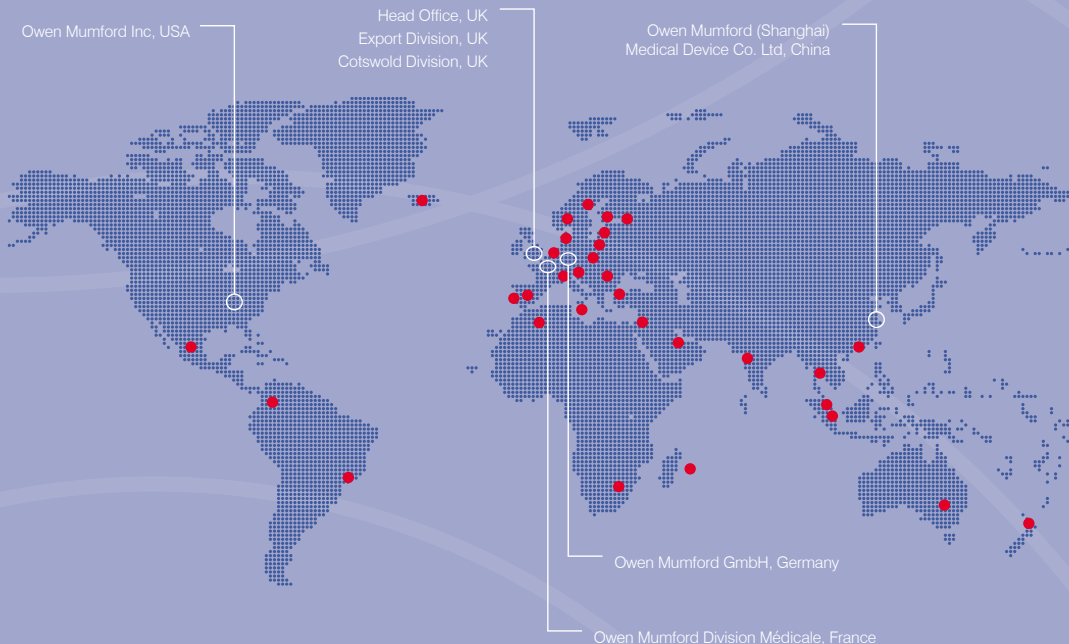

Founded in 1952, Owen Mumford has developed a global reputation in the medical device industry. From the design and patent of new device platforms to testing a finished product against the most rigorous standards, we have complete control of every aspect of the process in our UK development and manufacturing facilities. Put simply, our mission is to provide innovative solutions that exceed expectations, encourage compliance and improve quality of life.

#### Global Company, Local Focus

At Owen Mumford, being a leader in medical device innovation is only half of what we do. National healthcare programs and coverage are as diverse as the countries we do business with. We make it our business to understand your local needs, concerns and pain points to maximize your business opportunity.

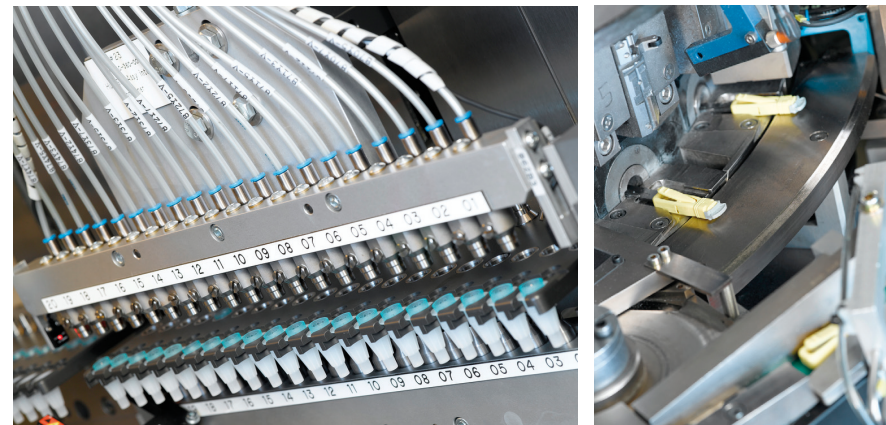

#### U.S. Healthcare Experts

The U.S. healthcare industry, in particular, presents complex challenges when it comes to medical device use, distribution and reimbursement. Our U.S. division features a team of clinical and retail experts, with an intimate understanding of these areas. Whether optimizing reimbursement strategies in retail, or maximizing clinical device adoption and compliance, our seasoned team is equipped with the tools, knowledge and resources to take your business to new heights.

● AUTHORIZED DISTRIBUTOR

OMRANGE/OMI0114/1/US

## Private Label

Owen Mumford offers quality products and unrivaled flexibility and versatility.

#### Boost Your Brand Visibility and Loyalty

Promote your own brand with private or co-labeled products to generate repeat business and increase your company's brand visibility.

#### A Win-Win for You and Your Customers

Private labeling allows you and your customers to benefit with high quality products for reduced prices and co-pays.

#### Our Team is Your Team

Owen Mumford will fully customize a program for your private or co-labeled products including reimbursement expertise, packaging design and printing, product launch support, sampling, sales promotions and more.

Making a **World of Difference,**  
to a **World of People**

## Product Range

## DRUG DELIVERY

### AutoDrop®

#### Eye Drop Guide

**AutoDrop®** is designed to prevent blinking in order to optimize eye drop delivery, improve patient compliance and reduce waste. The eye drop guide is easy to use and can be used in conjunction with **AutoSqueeze™**.

\*compatible with most eye drop bottles

### AutoSqueeze™

#### Bottle Squeezer

A must for those with dexterity issues, **AutoSqueeze™** provides extra leverage to ensure eye drops are delivered with ease.

\*compatible with most eye drop bottles

### Autoject® 2

#### Automatic Injection Aid

**Autoject® 2** makes self-injection easy by reducing anxiety and maximizing comfort. Simply load a syringe and, with the touch of a button **Autoject® 2** inserts the needle to a pre-set depth and delivers the medication.

#### Anxiety Reduction

Conceals needle before use to help reduce patient anxiety.

#### Enhanced Safety

Features Safety Interlock mechanism to prevent accidental misfires.

#### Extensive Compatibility

Easily fits most .3, .5 and 1cc syringes.

### Unifine® Pentips®

#### Pen Needles

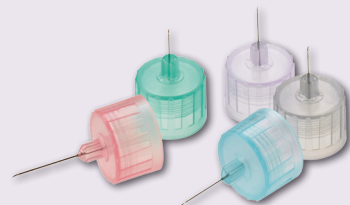

**Unifine® Pentips®** are the trusted choice of patients worldwide, delivering a lower glide and reduced penetration force for maximum comfort. Featuring advanced silicone, triple sharpened needles and anti-coring technology, **Unifine® Pentips®** exceed expectations for quality and performance.

#### Universal Fit

Fits all leading brands of injection pens.

#### All Sizes

Available in a variety of lengths and gauges.

## SCREENING

### Neuropen®

#### Neuropathy Screening Device

**Neuropen®** is an effective screening aid for determining risk of foot ulceration, combining two calibrated tests that assess sharpness and pressure sensitivity.

#### Replaceable Neurotips™ and Monofilaments

allow reuse of device while eliminating risk of cross infection.

## CAPILLARY BLOOD SAMPLING

### Unistik® TinyTouch™

#### Heel Incision Device

NEW!

**Unistik® TinyTouch™** is an extra-gentle sweeping motion heel lancet designed to quickly and comfortably sample neonatal blood with minimal pain and discomfort.

#### Shallow Blade Depth

Helps protect sensitive nerve fibers for greater comfort.

#### Easy to Use

Contoured, ergonomic design and alignment guides make usage easy.

### Unistik® 3

#### Single Use Safety Lancets

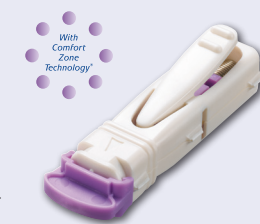

**Unistik® 3** safety lancets are safe, easy to use and virtually pain-free for a more comfortable blood sampling experience.

#### Optimal Sampling

A variety of sizes available for optimal sampling.

#### Comfort Zone Technology®

Masks pain stimulus for a more comfortable sampling experience by sending a signal of comfort to the brain, helping to eliminate the pain associated with a fingerstick.

## SEXUAL HEALTH

### Rapport™

#### Erectile Dysfunction Management

**Rapport™** is a safe, highly effective solution for erectile dysfunction. This vacuum therapy device produces an erection in minutes, for enhanced sexual confidence and wellbeing.

#### Proven Performance

95% success rate.

#### Accessibility

Easy-to-use and does not require a prescription.

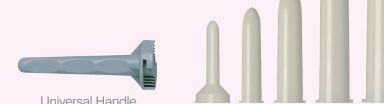

### Amielle™

#### Vaginal Dilation System

**Amielle™** addresses underlying causes of painful intercourse to help alleviate vaginal irritation and discomfort. Five graduated sizes allow women to progress at their own pace.

#### Discreet

Carrying bag for discreet storage.

Universal Handle

### Autolet® impression

#### Advanced Lancing Device

**Autolet® Impression** combines advanced technology and unique features in one automatic lancing device to provide users with ultimate comfort and control.

#### Force Adjustment

Adjust lancet force to control blood flow without increasing penetration depth. This allows the user control of both lancet force and speed, increasing sampling comfort.

#### Universal Fit

Compatible with most lancets.

### Unilet® ComforTouch™

#### Single Use Lancets

**Unilet® ComforTouch™** lancets are triple sharpened for maximum comfort and optimum blood flow.

#### Optimal Sampling

A variety of gauges are available to optimize blood flow.

#### Universal Fit

Compatible with most lancing devices.
