

## Sterile Water and Saline

McKesson Sterile Saline and Water is designed for use in the irrigation of devices. Formulated with 0.9% sodium chloride, it is sterilized through a gamma radiation process. This method allows McKesson Sterile Saline and Water to meet or exceed USP Standards. Intended for single patient use.

### Features and Benefits

- Multiple package options for customer convenience
- Available in convenient, ready-to-use containers
- Ideal for suctioning and wound debridement
- No antimicrobial or other substance added
- Sterile and ready to use
- Not made with natural rubber latex
