- Universal design fits most patient and traction tables
- Non-slip surface provides superior patient comfort
- Easily fit patient in 1 minute or less
- Quick release buckle for easy tension adjustment

Sizing: Fits 24" - 60" Waist

Quick & Easy

Traction Table Belts feature nylon straps and quick release buckles for easy tension adjustment to significantly reduce fitting time. Design allows fitting of most patients in a minute or less with little or no readjustment during treatment.

Available From:

Nonslip & Contoured

Contoured thoracic wrap fits comfortably under the rib cage of both female and male patients while providing optimal comfort. Durable nonslip fabric ensures belts stay in place without slipping, even over clothing. Works with most traction tables.
